

Dear Parents

The College has had a number of potentially dangerous situations arise in recent times in relation to the dropping off and picking up of students. The problems appear to stem from the fact that some parents are not sure where children can alight from vehicles safely.

This map and the following information will hopefully clear up any confusion.

Carpark 1: This is the main administration carpark off Petherick St. It is a staff carpark, however it does have a visitors carpark that can be used by parents if they are visiting the office, or picking up a child from the sickbay. It should not be used as a general drop off area.

Carpark 2: This is a staff carpark only.

Carpark 3: This is a staff carpark only. It is important that you do not enter this carpark or park in the entry driveway at any time. This carpark is where we have our buses and there is a lot of student movement through this area.

Carpark 4: This is a staff carpark only.

Carpark 5: The Sports Centre carpark can be used to drop or pick up and also to park and wait for your children, however it is important that you do not stop in the middle of the driveway as blocking traffic and double parking can become a dangerous hazard. When using this carpark during the peak morning and afternoon start and finish times we request that you do not exit the college via Rodsted Street but turn right and exit on Petherick Street as the potential for an accident is high on Rodsted Street due to the buses and reduced visibility.

For the safety of all concerned, Please do not use any of the 'staff only' carparks to stop and wait for your children. We ask that you use only the perimeter roads verges and the main driveway between Rodsted and Petherick Streets and the Sports Centre carpark (5). Please do not stand or park across entrances to the parking areas.

CARE SHOULD BE TAKEN AT ALL TIMES WHEN NAVIGATING THROUGH THE COLLEGE AND THE SURROUNDING STREETS. Children are generally unconcerned about traffic and are likely to walk across carparks and driveways haphazardly. PLEASE DRIVE SLOWLY AND CAREFULLY. THE SPEED LIMIT ON THE CAMPUS IS 10 KPH
