Our Programs

We aim to provide as many pathways for our students as possible. This ensures that students are geared up and ready for their career, regardless of whether they're leaning toward university or employment.

Our new Cert II programs are the perfect entry point into VET Qualifications and focus on leading the student towards understanding themselves and finding their strengths. This helps them make educated decisions moving forward.

Cert III programs are built around learning the basics of their chosen career and enabling them to solidify their thoughts and feelings about their future choices.

A Certificate IV satisfies many university entrance requirements and can provide entry into a lot of non-competitive courses. If students are aiming to get into a competitive course (eg: Nursing) they should have a plan B with the aim of switching after a semester.

ABOUT US

Health Science Hub does not try to offer multiple courses in many different industries. We concentrate on Health & Science. And to narrow it down even more - we focus on youth! This means that our courses are specifically developed for this age group and taught in a way that is both engaging and future focused for our students.

Our Location

Health Science Hub now has SEVEN classroom delivery sites across Western Australia, as well as students completing online courses across Australia.

In 2025 we added 2 new delivery sites for our specialised fitness programs. Perth Fitness is now found at Lords Recreation Centre in Subiaco where we have a dedicated HSH training space. Bunbury Fitness is now located out of the South West Sport Centre.

Our Team

We have been able to create the most amazing team of trainers to help our students throughout their learning journey. Our training team comes from various backgrounds including science teaching, registered nurses, exercise science professionals, and forensic scientists. Whichever course they choose with us - you can be guaranteed that their trainer has the skills and knowledge that will help them succeed.

Our Technology

Each of our courses use technology. Each student will be required to have access to their own device. This is so students can access our content, videos, podcasts, and more. We also use apps in the classroom that will help our students get a better understanding of how science works.

What is the EQ Hub?

EQ stands for Emotional Quotient (the measurement of emotional intelligence). Developing students' IQ academically as well as their EQ, is the goal. It also encourages students to Excel, Evolve, and Elevate their Qualification!

As HSH continues to grow and welcome more students, we recognise the need for tailored support. Particularly those who are neurodivergent, have learning difficulties, or are experiencing mental health challenges. While we already do a great job in this space, we want to take it a step further and become leading experts as an RTO.

Goals:

- ✓ Create an inclusive and safe environment for students, where they feel valued, respected and supported.
- ✓ Provide personalised accommodations and supports to help students overcome barriers and succeed.
- ✓ Promote mental health and well-being, fostering stress management and resilience.
- ✓ Empower students to advocate for themselves, building confidence and independence.
- ✓ Equip students with executive functioning, problem-solving, and real-world skills for future success.

Every student has access to the EQ Hub, however it's very important that we are able to collect the right information about our students from the very beginning. This relies on the students, parents, and VET Coordinators being clear about the student's capabilities and challenges. We also need to ensure that our students are academically capable of completing our programs which is why we have our entry requirements. From there we can help them achieve the success that they are capable of reaching.

Cert II Qualifications / Year 10 Program

In 2025, we surveyed many of our school VET Coordinators to ask how we could help provide options for the Year 10s who are ready to start their career journey early. The feedback was clear - schools needed flexible, supportive programs that would allow Year 10s to explore potential careers while building confidence in their abilities. In response, we've expanded our offerings to include Certificate II options and also introduced semester-based study options at this qualification level. This means Year 10s can now start with just one semester to explore a pathway, or commit to a full program if they're ready. With support from our dedicated Student Support Team and EQ Team, Year 10s can build their skills gradually while working toward nationally recognised qualifications that move them in the direction of their future career choice.

Course Options

Semester Option:

Semester 1 - Weeks 2-19 (18 weeks) \$1200

Semester 2 - Weeks 22-39 (18 weeks) \$1200

Full Qualification:

36 weeks (18 weeks in each semester) \$2200

Online:

12 month enrolment \$2000

Important: All students who have completed a Cert II program with HSH are provided priority enrolment into our Cert III programs for the following year.

Cert III Qualifications / Year 11 Program

Year 11 is the perfect time to start their Certificate III qualification at Health Science Hub. These nationally recognised programs are designed to help them explore career paths while gaining practical skills that employers value. With one day per week during the year, they'll balance school studies with hands-on learning in their chosen field. Each of our pathways have a Cert III option that will lead into a Cert IV program for our students to continue on their learning journey.

Cert IV Qualifications / Year 12 Program

Our Certificate IV qualifications are designed to give Year 12 students a competitive edge - whether they're heading to university or straight into the workforce. These higher-level programs combine advanced practical skills with academic preparation, creating multiple pathways for their future. ALL of our Cert IV qualifications provide our graduating students with the ability to apply to university at the equivalent of a 70 ATAR entry point. Note that not all of our Cert IV programs will provide WACE points for WA students, however if students have already achieved enough WACE points to graduate through their year 11/other subjects - then this won't be a deal breaker.

Upgrade Bonus' for HSH Students

Each student who is enrolled with HSH is given the opportunity to take advantage of our upgrade options. These are totally optional and give the students the ability to expand their skills and knowledge in different areas.

Nursing:

Upgrade Options: Nursing Specialty Holiday Days

- School holidays
- Some costs may be required to cover resources

Available to students studying the **Cert IV in Preparation for Health & Nursing Studies**. Workshops are available during school holidays.

- Midwifery (Pregnancy and Infants)
- Paediatrics (Children)
- Wound Care
- Surgical
- Mental Health
- Oncology (Cancer)
- Emergency Care
- Burns & Dermatology

Upgrade Option: Acute Care Upgrade + 80Hrs

- \$600
- 4 day workshop
- 80 hours work hours in Aged Care Home

Available to students studying the **Cert III Health Services Assistance**. Students are able to add on an additional 4 units and upgrade their certificate to include a specialisation. Certificate III in Health Service Assistance (Assisting in nursing work in acute care). Students will be required to attend a 4 day workshop during holidays, and complete 80 hours of work placement at an aged care facility.

Medic:

Upgrade Option: 2nd Qualification

- \$850
- Term 4 - 1 day/week

Available to students studying the **Cert III Basic Health Care**. Students are able to add on an additional 7 units and complete a second qualification (Cert III in Health Services Assistance) in Term 4.

Fitness:

Upgrade Option: Cert IV in Fitness

- \$2500 + \$100(+gst) Gym Access + \$100(+gst) Fitness App (Total \$2720)
- Term 4 - 4 days/week

This is a full qualification, however is only available to students who have completed the **Cert III in Fitness**. This upgrade will require students to attend 4 days/week in November and December and gain an additional qualification and a whole new job outcome as a Personal Trainer!

Upgrade Options: Fitness Specialty Holiday Days

- Various Costs
- School Holidays

Available to students studying the **Cert III or IV in Fitness, or Cert IV in Tertiary Preparation (Sport & Nutrition)**. Immerse yourself in various fitness focus days during the school holidays. Explore experiences like cold water therapy, nutrition, strength & conditioning, and injury management to expand your fitness knowledge beyond the classroom.

Animal Science:

Upgrade Option: Equine Essentials

- \$700 + \$150(+gst) Excursion Fees (total \$850)
- Term 4 - 1 day/week

This upgrade is for students who have completed the **Cert III in Animal Care Services** with HSH and would like to continue their learning into Term 4. Students will achieve an additional 2 units focusing on Horse Care and Equine Safety.

Upgrade Option: Marine & Enviro Conservation Units

- \$800 + \$100(+gst) Excursion fees (total \$910)
- 3 weeks - 4 days/week Nov -Dec

This upgrade is for students who have completed the **Cert IV in Tertiary Preparation (Zoology)** who wants to add on the Marine & Environmental Conservation Units to give them a well rounded foundation in all areas before moving onto University. Students will achieve an additional 4 units.

Digital Tech & Leadership

DIGITAL TECH

Step into the world of digital technology through our innovative program. From understanding computer systems to creating digital media, students learn practical tech skills that are valuable in any industry. Perfect for students interested in digital content creation, technology, and innovative solutions.

1 **Cert II in Applied Digital Technology**

- Work with industry-standard software
- Learn visual design skills
- Create engaging social media content
- Develop sound and video editing abilities
- Build a portfolio of digital work
- Understand cyber security

LEADERSHIP

Our Certificate II in Leadership is the perfect starting point for any Health Science Hub journey. Designed specifically for Year 10-12 students, this qualification helps you build the confidence, communication, and teamwork skills that are essential in any healthcare or science career. Completion of this qualification will provide entry into HSH Cert III programs for the following year.

Cert III & IV Coming in 2027

Bachelor of IT, Digital Design,
Media, eLearning Design

Completion of our Cert II programs provides
direct entry into our Cert III programs.

Preferable Entry Req:

- C Grade minimums for English, Maths, & Science
- Minimum level 2 for all areas of NAPLAN/OLNA

Employment Outcomes:

- Digital Content Assistant • eLearning Creation
- Social Media Support • IT Support • Marketing Assistant

Important:

Students must have their own laptop with Microsoft Word, Excel, and PowerPoint

Delivery:

This course is delivered as a full program for the year, or as individual semester options. Students can either enrol in Semester 1 or Semester 2 and achieve a select set of units instead of the full qualification.

UNITS

Semester 1 - Foundations of Tech

- BSBWHS211 Contribute to the health and safety of self and others
- BSBUS211 Participate in sustainable work practices
- ICTICT213 Use computer operating systems and hardware
- BSBTEC202 Use digital technologies to communicate in a work environment
- ICTICT214 Operate application software packages
- BSBXCS301 Protect own personal online profile from cyber security threats
- ICTICT221 Identify and use specific industry standard technologies

Semester 2 - Websites, eLearning, Vision & Sound

- ICTICT215 Operate digital media technology packages
- ICTWEB306 Develop web presence using social media
- CUADIG211 Maintain interactive content
- CUAPOS211 Perform basic vision and sound editing
- CUADIG304 Create visual design components

CAREER FOUNDATIONS

Explore the basics of your ideal career while building leadership skills. Learn about health and wellbeing concepts, and gain insights into different career options. Perfect for discovering if a career is right for you.

PERSONAL DEVELOPMENT

Develop essential self-awareness and problem-solving abilities that are crucial in workplace settings. Learn to manage stress, build emotional intelligence, and understand how these skills apply in different environments.

COMMUNICATION

Learn the foundation skills of communication and conflict resolution. Work effectively in diverse teams, understand others needs, and develop the interpersonal skills needed for success in different settings.

MEDIC KIT

Students enrolled in the Cert III & IV receive their very own medic pack that includes industry standard equipment for them to use during the training and keep for their future career!

UPGRADE

HSH Students will be offered the opportunity to upgrade their Cert III Health Services Assistance Qualification to include a specialisation in Acute Care. This provides them with an additional few units, and work placement of 80 hours in Aged Care. This upgrade is not suitable to all students and is ideal for those set on a career as a nurse.

AT A GLANCE

Start the healthcare journey with our structured pathway to nursing. From foundational leadership skills to university preparation, each qualification builds on the last to create a comprehensive route into nursing careers. Perfect for students in Years 10-12 who want to combine their WACE studies with nationally recognised qualifications.

OVERVIEW

1

Cert II in Leadership

- Build essential self-awareness and communication skills
- Develop healthcare-focused problem-solving abilities
- Learn to work effectively in team environments
- Perfect introduction for Year 10 students

2

Cert III in Health Services Assistance

- Gain hands-on healthcare experience
- Master essential patient care skills
- Learn medical terminology and procedures
- Includes professional medic kit
- Direct pathway to employment as AIN or Ward Assistant

3

Cert IV in Preparation for Health & Nursing Studies

- Specialised university preparation
- Deep dive into human biology and disease
- Advanced healthcare foundations
- Access to bonus holiday workshops in specialised areas
- Direct pathway to university nursing programs

CLINICAL MEASUREMENTS

Develop fundamental healthcare techniques including first aid, CPR, and patient care principles. Learn to take vital signs and perform clinical measurements like blood pressure, temperature, and glucose testing.

BODY SYSTEMS & DISEASE

Understand how body systems function, identify signs of disease, and apply safe practices to support individuals living with chronic conditions while maintaining infection control standards.

CAREER READY SKILLS

Step confidently into healthcare with essential workplace skills. Learn to communicate effectively with patients and healthcare teams, effectively update documentation, and develop the interpersonal abilities that employers value.

HOURS

HSH works with Brightwater Aged Care to provide our students with hands on medic experiences required for both Cert III and IV.

AT A GLANCE

Start the journey in therapeutic healthcare with our structured allied health pathway. Working with our industry partner Brightwater, students learn practical rehabilitation and therapy skills in purpose-built spaces. Perfect for students interested in physiotherapy, occupational therapy, and rehabilitation careers.

OVERVIEW

1

Cert II in Leadership

- Build essential self-awareness and communication skills
- Develop healthcare-focused problem-solving abilities
- Learn to work effectively in team environments
- Perfect introduction for Year 10 students

2

Cert III in Allied Health Assistance

- Learn essential therapy assistance skills
- Practice healthcare communication
- Understand different health conditions
- Work with real therapeutic equipment
- Includes 120 hours in Allied Health Environment

3

Cert IV in Allied Health Assistance

- Develop advanced clinical care skills
- Learn to assess and monitor patient conditions
- Practice complex emergency scenarios
- Work with industry-standard equipment
- Includes 120 hours in Allied Health Environment

ALLIED HEALTH SUPPORT

Explore the basics of how to assist with allied health programs and understand the impact of injury and disease in the community. Develop skills in supporting client movement, recognising fall risks, & how to work effectively in Allied Health.

PROFESSIONAL PRACTICE

Strengthen your use of medical terminology and healthcare communication while learning to work with diverse clients. Develop professional skills for the allied health industry, including effective responses to various client behaviours & needs.

RECOGNISE CONDITIONS

Learn to recognise and understand different health conditions and their impacts on clients. Develop skills in supporting clients with various health needs while maintaining professional and safe practice standards.

Brightwater

Work Placement:

Students are required to complete 120 hours in an allied health placement. HSH works with Brightwater Aged Care Centres across Perth to facilitate this, however students are also welcome to find an alternative allied health environment in consultation with HSH.

Interview:

Due to the work placement component of this course, HSH may require you to attend an interview to determine suitability.

Preferable Entry Req:

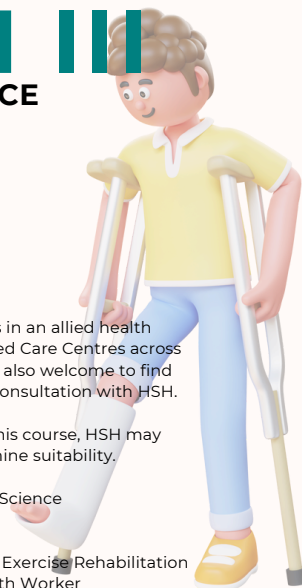

- C Grade minimums for English, Maths, & Science
- Completed NAPLAN/OLNA

Employment Outcomes:

• Allied Health Assistant • Therapy Assistant • Exercise Rehabilitation Assistant • Health Worker • Community Health Worker

UNITS

- BSBMED301 Interpret and apply medical terminology appropriately
- CHCCOM005 Communicate and work in health or community services
- CHCDIV001 Work with diverse people
- HLTAHA027 Assist with an allied health program
- HLTAHA049 Recognise impact of health conditions
- HLTINF006 Apply basic principles and practices of infection prevention and control
- HLTWHS001 Participate in workplace health and safety
- CHCAGE007 Recognise and report risk of falls
- CHCCCS002 Assist with movement
- CHCCCS020 Respond effectively to behaviours of concern
- HLTWHS005 Conduct manual tasks safely
- CHCLAH001 Work effectively in the leisure and health industries

- ACMGEN205 - Source and provide information for animal care work
- ACMGEN102 - Approach and handle a range of calm animals
- ACMSPE316 - Provide general care of domestic dogs
- ACMINF201 - Handle companion animals safely and follow infection control guidelines
- ACMSUS201 - Participate in environmental sustainable work practices
- ACMWHS201 - Participate in workplace health and safety processes

HEALTH & WELFARE

Explore how to assess animal welfare, maintain health, & provide basic first aid. Learn the basic skills of providing proper nutrition and enrichment while understanding how to monitor and support wellbeing across different species.

SPECIES CARE

Develop expertise in caring for various animals including birds, mammals, reptiles, and more. Learn to recognise different fauna while understanding the unique needs and behaviours of each species group.

CAREER READY SKILLS

Build essential skills in workplace safety, infection control, and team communication. Learn to promote positive wellbeing in animal care settings while implementing environmentally sustainable practices.

ANIMAL STUDIES

ACM30122 - CERT III IN ANIMAL CARE SERVICES

Where
PASSION
for animals
BECOMES A CAREER

EDUCATION PATHWAY

ACM20121 -
Cert II in Animal Care

ACM30122 -
Cert III in Animal Care Services

22582VIC - Cert IV in Tertiary
Preparation (Zoology or Marine)

Bachelor of Science (Marine
Biology or Zoology)

Preferable Entry Req:

- C Grade minimums for English, Maths, & Science
- Completed NAPLAN/OLNA

Employment Outcomes:

- Animal Care Attendant • Pet Shop Assistant • Animal Shelter Worker
- Kennel Assistant • Cattery Attendant • Animal Daycare Worker

UNITS

- ACMBEH301 Identify behaviours and interact safely with animals
- ACMGEN303 Assess the welfare status of an animal
- ACMGEN304 Promote positive wellbeing in self and others in animal care workplaces
- ACMGEN309 Provide basic animal first aid
- ACMGEN315 Communicate effectively with clients and team members
- ACMINF301 Comply with infection control policies and procedures in animal care work
- ACMWHS301 Contribute to workplace health and safety processes
- ACMBEH302 Provide enrichment for animals
- ACMGEN311 Maintain and monitor animal health and wellbeing
- ACMGEN312 Provide nutritional requirements for animals
- ACMSPE314 Provide general care of birds
- ACMSPE315 Provide general care of common native mammals
- ACMSPE320 Provide general care of mammals
- ACMSPE321 Provide general care of non-venomous reptiles
- ACMSUS401 Implement and monitor environmentally sustainable work practices
- AHCFAU202 Recognise fauna
- HLTAID011 Provide First Aid

Recommended for years:

12

DELIVERY

Online	18 mths	\$2250	
Class	Terms 1-3	Uniform	Field Trips x 4
	\$2550	HSH Polo	\$100 +gst

**UNIVERSITY PATHWAY**

Build the academic skills needed for university success. Learn research techniques, study strategies, and scientific writing skills essential for higher education. Our program prepares you for the academic demands of many degrees at leading universities.

**ANIMAL SCIENCE**

Learn the fundamentals of animal anatomy and physiology while exploring cell biology and genetics. Develop an understanding of animal evolution, preparing you for further studies in zoology & animal science.

**ANIMAL RESEARCH**

Develop understand in animal research and examination techniques while learning to investigate ecological systems. Understand how animals interact with their environments and build skills for scientific analysis.

ZOOLOGY

22582VIC - CERT IV IN TERTIARY PREPARATION**Mandatory Entry Req:**

- C Grade minimums for English, Maths, & Science
- Completed NAPLAN/OLNA

Outcomes:

Education Pathway for higher education

Where
PASSION
for animals
BECOMES A CAREER

EDUCATION PATHWAY

ACM20121 -
Cert II in Animal Care

ACM30122 -
Cert III in Animal Care Services

22582VIC - Cert IV in Tertiary
Preparation (Zoology or Marine)

Bachelor of Science (Zoology /
Conservation Biology)

UNITS

- VU23094 Research study options and plan education pathway
- VU23095 Prepare for tertiary reading and writing
- VU23096 Communicate verbally in a further study context
- VU23097 Participate in collaborative learning
- VU23098 Conduct online research for further study
- ACMATES11 Carry out post-mortem examination of a research animal
- ACMGEN314 Identify animal anatomy and physiology for animal care work
- VU23283 Investigate introductory genetics
- VU23281 Investigate cell biology
- VU23284 Investigate ecology

*Does not achieve WACE Points for WA Students, However will satisfy entry requirements for university at a 70 ATAR equivalent.

Recommended for years:

12

**UNIVERSITY PATHWAY**

Develop the academic skills needed for university success. Learn research techniques, study strategies, and scientific writing skills essential for higher education. Our program prepares you for the academic demands of many degrees at leading universities.

**ENVIRONMENTAL SCIENCE**

Learn to conduct biological surveys and understand climate change impacts on land management. Develop expertise in ecological investigation while building foundational knowledge for environmental conservation.

**MARINE MONITORING**

Explore the techniques of intertidal marine monitoring and water quality management in aquaculture. Learn to assess marine environments while understanding the delicate balance of aquatic ecosystems.

- VU23098 Conduct online research for further study
- AHCCFP301 Identify the effects of climate change as a factor in land management
- AHCECR502 Conduct biological surveys
- AHCMAR302 Conduct intertidal marine monitoring
- SFIAQU403 Manage water quality and environmental monitoring in enclosed systems
- VU23284 Investigate ecology

*Does not achieve WACE Points for WA Students, however will satisfy entry requirements for university at a 70 ATAR equivalent.

Lab & Forensics

PATHWAY

Cert II in Leadership

Cert III in Laboratory Skills

Cert IV in Tertiary Preparation (Forensics)

Bachelor of Forensics, Toxicology, Biomedical

DELIVERY

These Qualifications are available in the following way:

- Classroom only

HOURS

SHS works with Harry Perkins Institute of Medical Research to provide our students with hands on lab experiences required for both Cert III and IV.

AT A GLANCE

Start the journey into scientific investigation through our structured pathway. From learning laboratory techniques to forensic analysis, students work in specialised lab spaces and gain hands-on experience. Perfect for students interested in laboratory science, forensics, and scientific research.

OVERVIEW

1

Cert II in Leadership

- Build essential self-awareness and communication skills
- Develop healthcare-focused problem-solving abilities
- Learn to work effectively in team environments
- Perfect introduction for Year 10 students

2

Cert III in Laboratory Skills

- Learn essential lab safety skills
- Practice scientific techniques
- Work with lab equipment
- Process scientific data
- Gain work experience

3

Cert IV in Tertiary Preparation (Forensics)

- Study biological science
- Learn forensic foundations
- Complete 2 field trips
- Prepare for university
- Clear pathway to forensic degrees

LABORATORY TECHNIQUES

Explore essential lab skills including microscopic examination, culture media prep, and scientific testing. Learn to prepare working solutions and perform basic tests while capturing professional scientific images.

LABORATORY PRACTICE

Build crucial laboratory safety skills including cross-contamination prevention & workplace maintenance. Learn to plan and conduct laboratory work while developing the communication skills needed for success.

SCIENTIFIC DATA

Develop skills in processing and interpreting scientific data while maintaining quality standards. Learn to record and present findings professionally, ensuring your work meets industry standards for accuracy and reliability.

MSL30122 - Cert III in
Laboratory Skills

22582VIC - Cert IV in Tertiary
Preparation (Forensics)

Bachelor of Forensics,
Toxicology, Biomedical

Mandatory Entry Req:

- C Grade minimums for English, Maths, & Science
- Completed NAPLAN/OLNA

Employment Outcomes:

- Laboratory Assistant • Quality Control Assistant
- Medical Laboratory Support • Environmental Testing Assistant

UNITS

- BSBCMM211 Apply communication skills
- MSL913004 Plan and conduct laboratory/field work
- MSL922002 Record and present data
- MSL933009 Contribute to the achievement of quality objectives
- MSL943004 Participate in laboratory or field workplace safety
- MSL924005 Process and interpret data
- MSL933005 Maintain the laboratory/field workplace fit for purpose
- MSL973015 Prepare culture media
- MSL973025 Perform basic tests
- MSL973026 Prepare working solutions
- MSL973027 Perform techniques that prevent cross-contamination
- MSL973028 Perform microscopic examination
- MSL974023 Capture and manage scientific images

Please tick your course selection. If you are choosing qualifications over multiple years - please tick ALL qualifications requested

NURSING

☐ 52879WA - Cert II In Leadership

↓

☐ HLT33115 - Cert III in Health Services Assistance

↓

☐ 52895WA - Cert IV in Preparation for Health & Nursing studies

↓

Diploma of Nursing OR Bachelor of Nursing

MEDIC

☐ 52879WA - Cert II In Leadership

↓

☐ HLT31220 - Cert III in Basic Health Care

↓

☐ HLT41120 - Cert IV in Health Care

↓

Diploma of Emergency Health Care or Bachelor of Nursing/Paramedicine

ALLIED HEALTH

☐ 52879WA - Cert II In Leadership

↓

☐ HLT33021 - Cert III in Allied Health Assistance

↓

☐ HLT43021 - Cert IV in Allied Health Assistance

↓

Bachelor of Ex Sci, Health Science, OT*, Speech*, Physio*

LAB & FORENSICS

☐ 52879WA - Cert II In Leadership

↓

☐ MSL30122 - Cert III in Laboratory Skills

↓

☐ 22582VIC - Cert IV in Tertiary Preparation (Forensics)

↓

Bachelor of Forensics, Toxicology, Biomedical

FITNESS, SPORT & NUTRITION

☐ 52879WA - Cert II In Leadership

↓

☐ SIS30321 - Cert III in Fitness

↓

☐ SIS40221 - Cert IV in Fitness

↓

☐ 22582VIC - Cert IV in Tertiary Prep (Sport & Nutrition)

↓

Bachelor of Exercise Science, Nutrition, Health Science

ANIMAL SCIENCE

☐ ACM20121 - Cert II in Animal Care

↓

☐ ACM30122 - Cert III in Animal Care Services

↓

☐ 22582VIC - Cert IV in Tertiary Prep (Marine & Env Conserv)

↓

☐ 22582VIC - Cert IV in Tertiary Preparation (Zoology)

↓

Bachelor of Science (Zoology / Conservation Biology)

CARING FOR OTHERS

☐ 52879WA - Cert II In Leadership

↓

☐ CHC30215 - Cert III in Community Services

↓

☐ 22582VIC - Cert IV in Tertiary Preparation (Psychology)

↓

☐ 22582VIC - Cert IV in Tertiary Preparation (Social Care)

↓

Bachelor of Social Work, Psychology, Youth, Disability, Aged Care, Counselling

DIGITAL TECH

☐ ICT20120 - Cert II in Applied Digital Technologies

↓

Bachelor of IT, Digital Design, Media, eLearning Design

↓

WORLD HEALTH

☐ HLT36015 - Cert III in Population Health

↓

☐ 22582VIC - Cert IV in Tertiary Prep (Health & Disease)

↓

Bachelor of Health Sciences, Biomedical, Population Health

3**Enrolment Options** Please choose ONE of the following:

Signing up for multiple years allows you to receive priority enrolment into the second and third years and lock in 2026 pricing.

- ☐ One qualification in one year
- ☐ Two qualifications over two years eg, year 10 & 11, or year 11 & 12
- ☐ Three qualifications over three years eg, year 10, 11 & 12

4**Timetable** Please choose ONE of the following:

- ☐ Classroom 2026
- ☐ Online 2025 / Immediate Start
- ☐ Full Time 2026
- ☐ Online Term 1 2026 Start

*must choose 2 qualifications at same level

5**Parent Information** Please write clearly to prevent the incorrect information being input into our system.
